FOR DIRECTOR OF PUBLIC HEALTH
MADRAS

Extract from the Inspection Notes of the Assistant Director of Public Health, Madras on the Public Health Administration in South Kanara District communicated in R.No. 259613-VS-54 dated 27-10-54 of the Director of Public Health, Madras.

In addition to the range Health Inspectors, 2 Health Inspectors work in the Community Project area and are also given some part of the range work. The District Health Officer proposes to allot separate jurisdiction to them. A third Health Inspector has to be appointed shortly and with this division of work among the range Health Inspectors and the Community Project Health Inspectors it is possible to intensify public health work. The Director of Community Projects is agreeable to this suggestion.
